

SCIENCE OF PSYCHEDELICS IN PRACTICE

BY NEPOPULARNA PSIHLOGIJA

Second multidisciplinary conference
in Zagreb, Croatia

// 05 // APRIL // 2025 //

// BECOME A SPONSOR //

of mental health and a better tomorrow!

ABOUT THE CONFERENCE

The conference „**Science of Psychedelics in Practice**“ is a multidisciplinary event that brings together experts and researchers from psychology, medicine and related sciences, and aims to educate and raise awareness about scientific research and the therapeutic use of psychedelics. Following the great success of [the first conference](#), which attracted a large number of participants and was covered by media outlets such as [Jutarnji list](#), [Večernji list](#), [H-Alter](#) and others, a second one is scheduled for April 5, 2025, at the WESPA Spaces in Zagreb.

This year, we expect an even more extensive program, including two simultaneous stages, an online broadcast of the event, and international lecturers. Attendees will be able to hear about the most recent research on the use of psychedelics for medical purposes, and will also have the opportunity to learn more about our sponsors during the event. For those following the conference via online streaming, we will create a special section of the platform with more detailed information and important links from our sponsors.

With this edition of the conference, we continue to build a dialogue between experts and the general public on a taboo topic that is often shrouded in prejudices and unfounded attitudes. The success of the first conference clearly demonstrated a high level of interest in this topic and the importance of continuing to work to **reduce suffering and improve the quality of life in society**, especially considering the high percentage of people suffering from PTSD, depression, and other mental disorders.

ABOUT US

Nepopularna psihologija (Unpopular psychology) is a non-profit organization dedicated to the popularization of psychology and related sciences. We have been active for six years, organizing lectures, workshops and public events, as well as publishing scientifically popular articles on our website. Nepopularna psihologija is run by a group of volunteer psychologists dedicated to bringing scientific knowledge closer to the general public, as well as promoting quality dialogue on significant topics in the field of mental health.

WHY SHOULD YOU BECOME A SPONSOR?

By sponsoring the „Science of psychedelics in practice“ conference, you **become part of a unique event in the Balkan region that explores one of the most exciting and promising fields of modern science**. The conference will gather hundreds of participants from Croatia and abroad, providing your brand visibility among leading experts, researchers, the media and the interested public. Your support helps to raise awareness about the importance of mental health and innovative therapeutic methods, while also providing opportunities for you to network and connect with key figures in the scientific and business community.

FORMS OF SPONSORSHIP

In order to enable as many participants as possible to attend the conference at more affordable prices, the support of sponsors plays a key role. It can be of a financial nature, and below we list different levels of sponsorship based on the amount donated, along with the benefits we provide at each level. Although we have prepared a rough proposal, we are more than open to customize and discuss additional options that would better suit your needs.

Another type of sponsorship includes contributing with gift packages that attendees will receive upon registration, along with accreditation and conference promotional materials. It could be a promotional product, refreshments, a promo code for your services or anything else of your choosing. We are open to various options, and if that is the case we can also agree on additional benefits.
